Organizational Pattern

As author indicated in his book, organizational pattern help writers to remember which information to include and where to put it, it is obviously important in proposal writing.

For my proposal's final recommendation report, I choose to take 'more important to less important' as my organizational pattern. Due to I'm suppose to launch a new website, it should be treated as a new product, and this pattern could easily point out the issues and most-important information. These features are strongly help for final recommendation report.
