

Interview for StrongBox

Interviewee: Student major in Mechanical Engineering, Female

- Do you need a safe box

Yes, sometimes I need a place to put my stuffs.

- Would you invest this product

Yes, maybe with detailed design report and I find it is easy to use.

- What kind of objects would you put in the safe box

Money, Jewelry, passport.

- Would you prefer electrical switch rather than manual?

Electrical, but if it is so expensive, manual is better.

Interview for StrongBox

Interviewee: Student major in Business, Male

- Do you need a safe box

Yes, may be, but it is not an essential tool in my life.

- Would you invest this product

Only if it can bring income. We should control the cost and price to maximum profit. I think \$1000 for such a product including installation fee is good for me.

- What kind of objects would you put in the safe box

Money, important docs like passport, IDs.

- Would you prefer electrical switch rather than manual?

Both are okay, but I prefer one which is easier to use.
